Dimensions

H x W X D: 32 1/4" x 17 5/8" x 21 9/16"
ADA compatible
Fits in European kitchen under counter spaces

Most Efficient 2017 ENERGY STAR www.energystar.gov

In Harmony with Nature

Blomberg believes your home should be as smart as you are, in every sense of the word. That includes performing flawlessly while protecting the planet. It's a philosophy that earned us the ENERGY STAR® 2017 Partner of the Year Award and elevated this dishwasher to the 2017 ENERGY STAR® Most Efficient list, which recognizes products delivering cutting-edge energy conservation with the latest in technological innovation.

In Harmony with Your Life

Silent Operation

When your home is your sanctuary, you don't want to have to leave the room or only run the dishwasher late at night. Quality engineered with three layers of noise-suppressing insulation and advanced Brushless DC™ motor technology that optimizes working speed and lowers wash-cycle noise, Blomberg dishwashers are among the quietest on the market.

FlexiRack

When the need arises, the hard-working upper rack can be raised to make room for pans, platters, and trays in the bottom rack or lowered to accommodate tall glasses up top. FlexiRack allows you to adjust the height in one simple action, even when the rack is fully loaded.
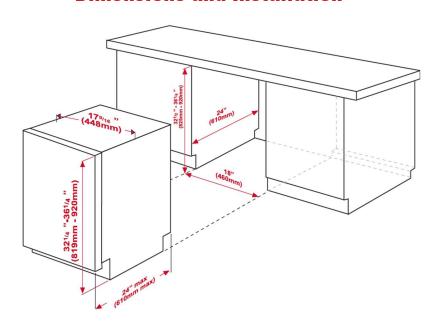

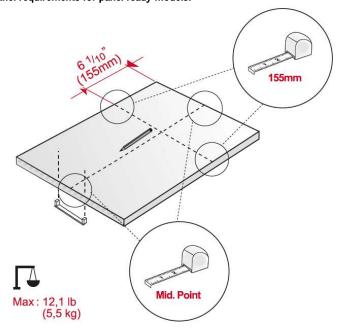

18 INCH TOP CONTROL SLIM DISHWASHER
