SPECIFICATION SHEET
ALTA - EQLD1 SERIES

HVI-2100 CERTIFIED RATINGS comply with new testing technologies and procedures prescribed by the Home Ventilating Institute, for off-the-shelf products, as they are available to consumers. Product performance is rated at 0.1 and 0.25 in. static pressure at high speed based on tests conducted in an HVI-approved state-of-the-art test laboratory. Sones are a measure of humanly-perceived loudness, based on laboratory measurements. * Where noted performance rating is not HVI certified but was established in accordance with HVI Standardized test procedure. ** Max. blower CFM indicates the performance of the hood blower in open air.
