FEATURES & BENEFITS

ActiveSmart™ Foodcare

Every time you open your refrigerator, the temperature around your food changes. ActiveSmart™ foodcare adjusts airflow to create a stable temperature, helping your food stay fresher for longer.

Clever energy

Your refrigerator adapts to daily use by cooling and defrosting only when needed. This means your refrigerator uses the energy it needs without compromising on food care.

Design quality

Our refrigerators are designed and built using quality materials. We use pre-painted steel on our refrigerators and solid glass for shelving.

Simple storage

This refrigerator is designed to make it simple for you to store, access and remove food. Storage bins give you full access inside when they're pulled open and can be easily removed to clean. Our flexible shelving also gives you more storage options.

Humidity control

Your fruit and veges need different environments. The humidity control slides in each storage bin create a microclimate that helps keep food fresher for longer.
