

EURO-STYLE 36" INDUCTION DOWNDRAFT COOKTOP

Signature Features

JID4436ES

INDUCTION TECHNOLOGY

Cooks like gas, looks like electric, outperforms both. By converting cookware into the heat source, induction technology gives you fast, efficient and outstanding cooking power.

PAN DETECTION

A sensor detects your cookware before enabling an element. When it is removed, the element automatically switches off.

2 FAN SPEED SETTINGS

Provide a range of ventilation power to accommodate your precise cooking needs.

DOWNDRAFT VENTILATION

Developed and refined by Jenn-Air®, a downdraft ventilation system uses proximity ventilation to capture smoke, steam and odors at the cooking surface, whisking them down and out of the kitchen before they can escape.

PERFORMANCE BOOST

Quickly heat cookware, boil liquids and sear meats by raising the cooking temperature above the highest setting for up to 10 minutes, available on all induction elements.

350 CFM BLOWER CAPACITY

Rapidly and efficiently clears the air of vaporized grease, smoke and steam that can damage walls and cabinetry.

CONVERTIBLE TO DUCT-FREE VENTILATION

Keep the view from your kitchen open and free from ductwork with this optional kit that allows conversion to duct-free ventilation.

FLEXIBLE INDUCTION ELEMENTS

These elements offer the flexibility to cook using different sizes of cookware on the same element.

CERAMIC GLASS SURFACE

Beautiful, jet-black glass surface presents a stylish appearance and wipes clean easily.

Dimensions

Depth: 21-3/8 in

Height: 7-9/16 in

Width: 36 in

Controls

Infinite Heat Controls: No

Location of Controls: Front

Design Type

Design Expression: Stainless Steel
