Wall Mounting

The appliance can be wall-mounted. There are two mounting holes 1 at the back of the appliance.

**CAUTION**  
Make sure the wall and fastenings can withstand the weight of the appliance when fully loaded. The empty appliance weighs 68.4 lbs.

**IMPORTANT**  
To ensure sufficient ventilation through the ventilation slots, the four wall spacers 2 must always be inserted, regardless of whether the appliance is wall-mounted or standing on the floor against a wall.

Simply insert the spacers in the openings provided.

## Design & Lifestyle

Liebherr's **WS 1200** gives you premium wine storage in an attractive package anywhere. The well-appointed cabinet holds up to 12 Bordeaux (750 ml) on solid beech wood shelving and has a convenient drawer that can maintain a warmer temperature than the wine compartment to keep wine accessories, chocolates or candies. The ideal temperature for storing wine for prolonged periods is 46°F (+8°C) to 54°F (+12°C). White wine to be kept on hand at serving temperature should ideally be stored at a temperature below 50°F (10°C) and red wine at up to 64°F (18°C). With this in mind the touch electronic control system allows the temperature to be set to the exact degree required between 41°F (+5°C) to 68°F (+20°C). Energy efficient LED lighting can be controlled with a dimming function and a permanent "on mode" creates atmosphere without affecting the temperature of the wine.

## Features

**German Engineering:** Our superior products offer premium quality, cutting edge design and innovative features that fit your busy lifestyle. Exclusive components and materials, along with the latest production processes, ensure energy efficiency and performance for years to come.

**SmartSteel:** Available on select freestanding/semi built-in models significantly reduces the visibility of fingerprints and is very easy to clean and scratch resistant. All that is required to maintain this beautiful exterior is the wipe of a clean dry or damp cloth.

**Integrated Lock:** A sturdy lock protects your fine wine collection.

**LED Lighting:** The energy efficient LED ceiling light not only emits virtually no heat, but it is dimmable to cast a cool glow to give a pleasing ambient light inside the appliance as well as the room.

**FreshAir Activated Charcoal Filter:** Liebherr wine cabinets are fitted with easy-to-replace FreshAir activated charcoal filters to ensure clean air. Odors are filtered out and the quality of the wine is protected.

**Alarm System:** Liebherr Wine units are equipped with a trustworthy alarm system to alert the homeowner if the door has been left open or the temperature has been compromised.

**Electronic LCD display:** Intuitive navigation of touch electronic control system enables tailored storage options. The digital temperature display can be viewed via the UV tinted glass door.

**UV Protection:** In order to minimize the exposure of light which can damage the maturity of a wine, Liebherr wine cabinets are fitted with special UV-resistant insulated glass; simultaneously protecting and presenting your wine.

**Compressors:** Specially developed compressors installed in the wine cabinets from Liebherr ensure that the wines are stored in a particularly low vibration environment.

\* Energy Cost will depend on utility rates and use. Estimated energy cost based on a national average electricity cost of 12 cents per KWh.

\*\* Noise output – according to EN 60704-3
