

# NOW WITH BRIGHTSHIELD™ ANTIMICROBIAL PROTECTION

Marvel BrightShield™ Lighting is a proprietary biotechnology innovation that provides continuous antimicrobial action to create a cleaner environment for your ice. BrightShield kills\* viruses, bacteria, fungi, yeasts, mold, and mildew and is even proven effective against the most difficult class of viruses to kill. Additionally, this UV-free LED light technology is approved for continuous use around people, pets and plants.

## FINISH OPTIONS

## 15" Marvel Professional Nugget Ice Machine with

**BrightShield™**

MPNP415

### Performance

- Industry-leading BrightShield™ UV-free LED lighting with Vyv antimicrobial technology kills\* viruses, bacteria, fungi, yeasts, mold, and mildew and provide an extra layer of antimicrobial protection
- The ice preferred for its satisfying crunch, easy to chew texture and slow melt
- Commercially-rated to produce up to 90 pounds of nugget ice daily and stores 30 pounds
- Includes interior water dispenser and internal filter for ice and water supply
- Engineered for supremely efficient ice production to conserve water and energy consumption
- Shaped in bite-sized 3/4" L x 1/2" H cylindrical ice nuggets
- One of the easiest nugget ice machines to clean
- Factory-installed pump

### Convenient Controls

- Digital touch controls with built-in cleaning alerts simplify ownership and maintenance
- Select from five adaptable ice density settings ranging from soft to extra crunchy
- Features easy-to-use settings and options

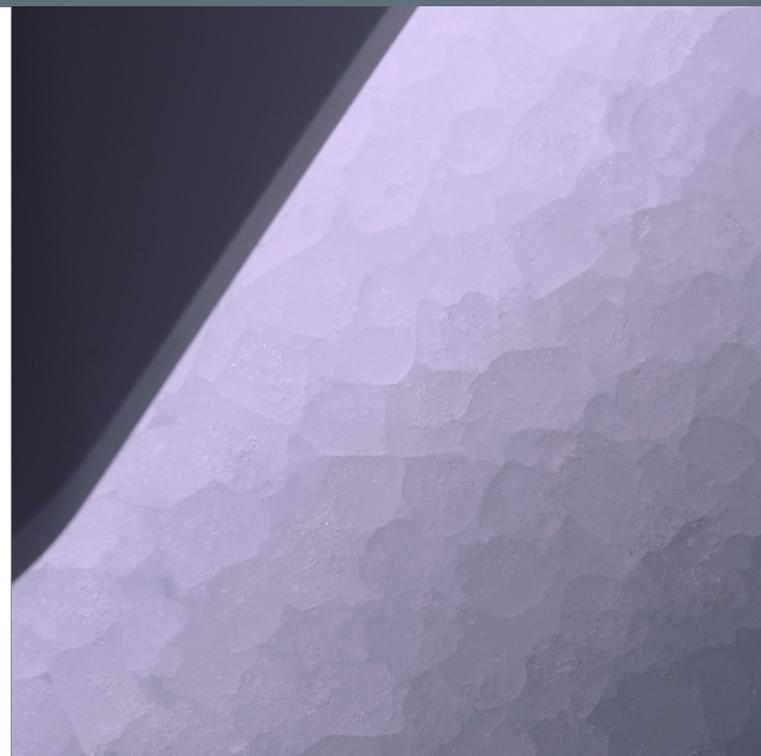

### Fit & Finish

- Luminous LED light and elegant midnight black interior
- Reversible door allows for right or left swing for adaptable installation
- (4) height-adjustable leveling legs
- For built-in or freestanding use

### Warranty

- 3-year parts and labor warranty with product registration and 5-year sealed system parts warranty

\* Testing on a non-enveloped virus (MS2 bacteriophage) showed a 97.12% reduction in controlled laboratory testing in 8 hours on hard surfaces. Testing on SARS-CoV-2 (enveloped virus) showed a 98.45% reduction in controlled laboratory testing in 4 hours on hard surfaces. Testing on MRSA and E. coli showed 90%+ reduction in controlled laboratory testing in 24 hours on hard surfaces. Results may vary depending on the amount of light that is reaching the surfaces in the space where the product is installed and the length of time of exposure. Use of Vyv antimicrobial light is not intended to replace manual cleaning and disinfection practices.

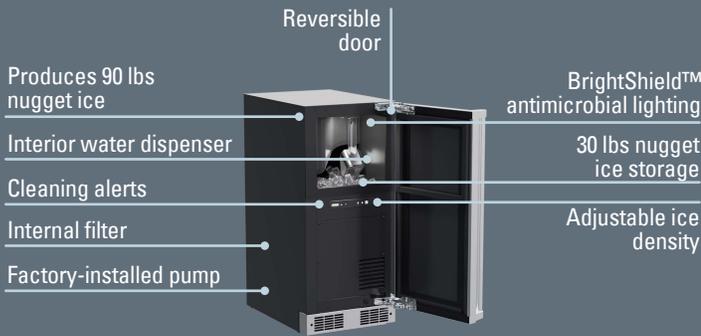

*With adjustable texture from soft and easy to chew to extra crunchy, this uniquely shaped cylindrical ice is known for its satisfying crunch. Plus, new BrightShield antimicrobial lighting provides continuous sanitizing action to ensure a cleaner supply of ice.*
